- Question: There is a view that the government should suspend the "Lantau Tomorrow Vision Project" which would cost at least $\$ 600$ billion. How much do you support or oppose this view?

* Include: pro-establishment camp supporters, centrist supporters, no political inclination / politically neutral / do not belong to any camp
^ The aggregated figures come from adjusting the by-group weighted figures using ratio of "pan-democratic" vs "non-pan-democratic" collected in regular tracking survey.

[^0]:    * The original answer options are "Very much support / Somewhat support / Half-half / Somewhat oppose / Very much oppose", POP changed the wording to
    "Very much support (the suspension) / Somewhat support (the suspension) / Half-half / Somewhat oppose (the suspension) / Very much oppose (the suspension)" at about 11 o'clock on the night of 21 September. This survey results only include those samples collected after the update.
